Certified IT professional with over 7 years of experience specializing in Microsoft Exchange (On-Premises & Online), Microsoft 365, and hybrid cloud environments. Proven expertise in email and data migrations, mail flow troubleshooting, PowerShell automation, and Microsoft Teams administration, with a strong track record of delivering secure, scalable, and efficient collaboration solutions. Adept at leveraging tools such as ShareGate to streamline migrations and optimize system performance. Recognized as a Teams administration expert with advanced knowledge of voice solutions, including auto-attendant and call queue configuration. Known for a proactive ownership mentality, strategic problem-solving, and mentoring team members to drive operational excellence. Thrives in dynamic IT environments, consistently delivering high-quality solutions that enhance productivity, strengthen security, and support organizational growth.

EXPERIENCE

TECH LEAD

Cognizant Technology India Pvt Ltd - | Pune, MH 411057

29 APRIL 2022 – PRESENT

- Expert in Microsoft 365 administration with hands-on experience in Exchange (Online & On-Prem), Teams, SharePoint, and OneDrive.
- Led seamless migrations from on-prem file servers to Teams and SharePoint using **ShareGate**, ensuring permissions integrity and improved collaboration.
- Strengthening email security by implementing transport rules, connectors, and anti-spam measures, reducing threats and improving compliance.
- Enhanced Teams telephony infrastructure with call queues, auto attendants, IVRs, and resource accounts, streamlining communication workflows.
- Automated administration tasks using PowerShell modules (**ExchangeOnlineManagement**, **MSOnline**, **AzureAD**, **MicrosoftTeams**) to improve efficiency.

IT SYSTEM ADMINISTRATOR

Span Pumps Pvt Ltd | Pune, MH 411045

01 SEP 2021 – 09 APR 2022

- Implemented Microsoft 365 security features including MFA, Conditional Access, and VPN configurations to enhance system security.
 - Conducted SharePoint audits, compliance checks, and governance policy implementation.
 - Designed customized SharePoint solutions, streamlined document management with libraries/metadata/versioning, and managed backups/recovery.
 - Facilitated migrations (IMAP, G Suite) and delivered user training on O365/SharePoint applications.
 - Provided end-user support and troubleshooting for O365 and SharePoint, ensuring minimal downtime.
 - Demonstrated technical proficiency in SMTP, OSI Model, TCP/IP, and network troubleshooting.
-

IT SYSTEM ENGINEER

Span Pumps Pvt Ltd | Precision Infomatic (M) Pvt Ltd (Payroll) | Chennai, TN 600017

21 JAN 2021 – 31 AUG 2021

- Assisted in managing Microsoft 365/O365 environments including Exchange, SharePoint, Teams, and Active Directory.
- Configured user accounts, group policies, and basic permissions to support onboarding and access management.
- Supported migrations (IMAP, G Suite, file servers) by preparing data and troubleshooting issues.
- Monitored system performance and network connectivity using OSI Model and TCP/IP fundamentals.
- Helped implement security features such as MFA, VPN, and conditional access under senior guidance.
- Provided Tier-1/Tier-2 support for O365 applications and SharePoint, ensuring minimal downtime.

DESKTOP SUPPORT ENGINEER

Excelsior Research Pvt Ltd |Pune, MH

JAN 2020 – 19 JAN 2021

- Provided Level 2/3 support for Office 365 applications (Word, Excel, Teams) and SharePoint environments.
- Managed user access, document libraries, and troubleshooting to enhance collaboration and data integrity.
- Assisted with migrations between Office 365 environments, ensuring minimal disruption.
- Implemented security measures and backup solutions to safeguard sensitive data.
- Monitored system performance, applied upgrades/patches, and ensured seamless LAN connectivity.
- Delivered user training and documented best practices, improving adoption and knowledge sharing.

DESKTOP SUPPORT ENGINEER

Excelsior Research Pvt Ltd |Pune, MH

JUN 2019 - JAN 2020

- Assisted Desktop Support Engineers in troubleshooting Office 365 applications and SharePoint issues.
- Supported user account setup, permissions, and basic network configurations.
- Helped with system upgrades, patches, and proactive monitoring to reduce downtime.
- Provided Tier-I support for end-users, escalating complex issues to senior engineers.
- Documented support activities and contributed to knowledge base for process improvement.
- Ensured smooth daily operations by coordinating with IT teams and maintaining positive customer relations.
